

S.J. PHILLIPS

Early 20th century emerald and diamond flowerhead cluster ring c.1915, the circular faceted emerald of approximately 0.55ct,

raised in a diamond line frame, all bordered by fan-cut emeralds forming half moons and outer scalloped edged diamond line edge, millegrain and collet set, between diamond line shoulders, the gallery pierced with a heart scroll band, the shank stamped 15, tested as 18ct gold and platinum to head and 15ct gold to shank, in our opinion the central emerald is of Colombian origin with minor traditional oil clarity treatment
Cluster 14.5 x 14.5mm

**Emerald approximately 5.4 x 5.4 x 3.5
Weight: 2.5g**
